ALUROUT New Year's Event

Date: Wednesday, January 13th, 2021
Location: Online (Microsoft Teams)
Time: 10.00 am – 12.00 pm (Germany),
05.00 pm – 07.00 pm (China)
Registration: Follow this [link](#)

“Keep ROUTing the logistics of tomorrow with ALUROUT.”

ALUROUT has already been bringing together Sino-German logistics experts from academia and business for three years. At the turn of the year, the Fraunhofer Institute for Material Flow and Logistics IML cordially invites you to participate in the ALUROUT New Year's Event 2021 on **January 13th, 2021**.

At this event, the ALUROUT network looks back on the eventful past three years and points out which logistical topics will shape Germany and China in the future. We are particularly pleased that, in addition to Prof. Dr. Michael Henke, two logistics experts from China, Prof. Dr. Dianjun Fang and Dr. Ling Xuan, will give an exciting keynote speech on current developments in logistics.

Blockchain Technology and Smart Contracts – Potentials for Global Supply Chain Management

Prof. Dr. Michael Henke
Fraunhofer IML, Dortmund

New Developments in Intralogistics – A Sino-German Perspective

Prof. Dr. Dianjun Fang
Tongji University, Shanghai

Urban Freight and Logistics – Insights from the CLCT project

Dr. Ling Xuan
GIZ, Beijing

In addition, you will have the opportunity for personal exchange with our three speakers in subsequent breakout sessions. Through your questions and ideas, you will also have the chance to help shape the topics for upcoming ALUROUT events.

To register for the event, please follow this [link](#).

We look forward to your participation!
